

HARVEST FESTIVAL

In England, thanks have been given for successful harvests since pagan times. In churches and schools, people bring in food from their garden or farm. The food is often distributed among the poor and senior citizens of the local community.

We will be having our own Harvest Festival on Sunday, September 27th to thank God for the harvest. If you have an overabundance of vegetables from your garden, or would like to buy some fresh fruit or vegetables to share, please bring them in to church on that day. We will donate all the food to *Neighbors in Need*, which is in dire need of fresh fruits and vegetables. Thank you for helping us celebrate this “Thanksgiving”!
